The 11th Annual International Bridge Conference (IBC) is proud to sponsor a Student Paper Competition. Student papers are being solicited from students at every college and university within the United States offering a Civil Engineering major. The competition is open to all graduate and undergraduate students. Papers will be reviewed by the student's department chairman, and one finalist will be submitted to the IBC Student Awards Committee.

The author of the winning paper selected by the Student Awards Committee of the IBC will receive a **\$1,000 Grant Fellowship** from the Conference, along with complimentary registration, hotel accommodations and travel to the 1994 International Bridge Conference.

The IBC is the most comprehensive, broad-based and authoritative forum on bridge topics. It is intended to encourage and promote the interchange of information, procedures and techniques related to bridge projects among owners, researchers, practicing engineers, suppliers and contractors. The program includes:

- * Technical Sessions
- * Invited Keynote Speakers
- * A Bridge Tour of current construction and rehabilitation projects in the Pittsburgh area
- * Roebling and Richardson Awards
- * Exhibit Show

The Conference seeks papers on bridge-related topics. Students may select specific topics. Student papers prepared for other purposes (e.g., thesis, project) are acceptable. Papers are limited to 10 pages, single spaced, and must be the original work of the student. The winning paper is included in the published proceedings and may be eligible for presentation at the conference.

Complete this *Call for Student Papers* and submit it with your paper to your Department Chairman by **March 7, 1994**. Your department will then select one finalist paper for submission to the International Bridge Conference. This submission must be received by the IBC before March 28, 1994. Selection of the winning paper will be made by the IBC Student Awards Committee by April 25, 1994. The Conference will take place June 13-15, 1994 at the Pittsburgh Hilton and Towers.

JUNE 13, 14, 15, 1994
